OBJECTS

We showcase some of the latest innovations in contemporary outdoor product design

Compiled by Kevin Smith

FEELING SQUARE

Producer: CubeUK
Price: from £7,500
Tel: 0800 849 8111

The Modular Cube offers a no-hassle way of installing a garden building that's substantial enough to be an office, guest suite or sauna – simply choose the elements to create your ideal layout and a team will assemble it in a day. The clean lines of the cubes are ideal for an urban space, although also contrast well with rural settings. Buildings are constructed from glulam timber boards and plywood, and the ceilings, floors and walls are all insulated.

GRAND ENTRANCE

Designer: Peter Wildon
Price: from £15,000
Tel: 0845 612 5198

For bespoke, period-inspired ironwork look no further than Peter Wildon. His beautiful portfolio includes gates, swings, gazebos, balconies and more, most commissioned for country houses, castles and buildings where making an impression counts. Peter's work is certainly on the grand side of things, although his attention to detail is exquisite and well worth the investment. Keep him in mind for large-scale projects where an impressive entrance is paramount.

WATERWAYS

Producer: Alessi for All Modern
Price: £56 for two
Tel: 0800 917 1825

This fun watering can from Alessi is perfect if you're adding the finishing touches to a contemporary terrace, balcony or conservatory. Manufactured from thermoplastic resin with a stainless steel spout, it's durable and stylish. It's not as large as a regular garden can (42cm from back to front), but ideal for a small space or for watering delicate plants and containers. It's available in orange, green and black – just the palette if you're working with a vibrant colour scheme.
